

LINWOOD BULLETIN - MARCH 25, 2013

LINWOOD'S NATIONAL WIN MEASURES UP!

Linwood has won the most awards in the industry for outstanding home building design and materials when competing against homes that cost much more to build per square foot.

Celebrating 45 years of excellence, Linwood has earned almost 70 noted awards in the past several years, creating custom home packages for homeowners all over the world.

70th CHBA National SAM Awards

National Winner

"The CHBA National SAMs celebrate the best in the business—the companies and those who dream and dare, and inspire their customers and their industry peers with awe."

WINNER - New Home Awards
Production Built Home Under 1,500 sq. ft.

FINALIST - New Home Awards
Custom Home Under Under 2,500 sq. ft.

CHBA President Ron Olson said, "Each of these National SAM Award winners has demonstrated leadership and produced leading-edge products." Craig McFarlane, Vice-President of Retail Sales, (pictured on far right) led both projects. He accepted the awards for Linwood from Ron Olson.

The use of natural wood, including Western Red Cedar and Douglas Fir, is admired throughout the world. Linwood's custom design and home package construction methods are setting new standards in home building.
