

# WHAT'S INCLUDED WITH A LINWOOD CUSTOM HOME PACKAGE?

*Linwood offers more than building plans and the corresponding home package materials. The following 8 additional services are included:*

**1. Site Specific Design™:** Linwood is known for its consultation with homeowners to maximize the best land characteristics, access, set backs, etc. of each building site.

**2. Custom Home, Cottage or Cabin Design Services:** Linwood offers nationally-recognized, award-winning custom design. Linwood can customize a pre-existing Linwood design or create a new home design from scratch.

**3. Rough Budget Planning:** Linwood has the in-house tools and construction planning expertise to help establish a rough budget for each build.

**4. Material Selection:** Linwood offers the widest range of quality home package materials to choose from – including windows, exterior doors, roofing products, timbers, beams or siding materials.

**5. Builder Network:** Getting the right builder plays a key role in the success of any project. As a result, Linwood offers access to a builder network in many different regions.

**6. Home Package Shipping & Delivery:** Whether by truck, rail, ship or helicopter, home packages can be shipped to the most challenging building sites.

**7. Technical Support:** Should changes be required in the planning stages, Linwood's in-house experts can talk directly to planning officials, builders and local engineers.

**8. Warranty Package:** A full warranty package is issued with every Linwood material home package.
